

# HAWK MOUNTAIN RANGER SCHOOL

## 12-20 JULY 2008

### *Tired of the same old summer routine?*

Attend Hawk Mountain Ranger School 2008 and begin the adventure that will last a lifetime!

Last summer? Playing video games.

**This summer: Rappelling on a 60 foot tower!**

Last summer? Stuck at home.

**This summer: Hiking the Appalachian Trail!**

Last summer? Waiting for friends to get back from vacation.

**This summer: Making new friends from over 30 different states!**

It's funny that after twenty-three years of very active duty Air Force, and fifteen years of exciting (and trying) Civil Air Patrol time under my uniform belt, my thoughts go back to Hawk Mountain every July. For someone who has traveled the world and served on foreign shores, that says a great deal to the impact Hawk Mountain makes in peoples' lives. My hope is that the Hawk Mountain Ranger program continued to have the same positive influence that it made when I was there.

Thank you,  
Lee Maynard  
Instructor Ranger #10

**\*\*Application Deadline is June 10, 2008\*\***

**For specific information & updates visit the HMRS website: <http://pawingcap.com/hawk/>**

Throughout the entire school, you will be challenged to take charge of difficult situations in order to become part of a working team, immersed in a wilderness environment. Your instruction and hands on training will take place in real mission settings. Subjects include individual and team equipment and techniques used in team searches, navigation, cutting tools, survival, and woodsmanship skills. In addition to the practical skills, leadership and character development are emphasized. The school involves testing, not just to graduate from the school, but also to earn Ranger Grade certifications which include 101 advancement.

The friends you gain will remain close to you for life. There is a sense of pride, camaraderie, honor, and tradition present at this school. If you are willing to work hard, the possibilities of what you can accomplish at HMRS are boundless. Little will be easy at the school, but the challenges will be well worth your while.
